

Herantis Pharma to host a R&D update webinar on January 19, 2023

Herantis Pharma Plc, Press release, 12 January 2023 at 9:00 AM EEST

Link to the R&D update webinar (14:00-15:00 EET/13:00-14:00 CET): [Click Here to Register](#)

Herantis Pharma Plc (“Herantis”), an innovative biotech company developing new disease-modifying therapies for Parkinson’s disease, will host an R&D update webinar on Thursday January 19th, 2023, for investors, analysts, media and for anyone interested in Herantis and our HER-096 program for Parkinson’s disease.

The agenda for Herantis’ R&D update webinar:

Welcome and Introduction
Achievements during 2022
Why HER-096 is a perfect drug candidate for Parkinson’s disease (PD)
HER-096 animal data confirm its unique mechanism of action and brain penetration
Update on CDNF
Clinical development and biomarkers
Strategy and development milestones for 2023
Closing Statement & Q&A

About HER-096:

HER-096 is a peptidomimetic molecule designed to retain the biological activity of the neuroprotective CDNF protein. HER-096 has demonstrated to have a multimodal mechanism of action mimicking CDNF and to improve functional recovery of damaged neurons in preclinical models. Importantly, HER-096 has been shown to readily penetrate the blood brain barrier in preclinical studies allowing convenient subcutaneous dosing. Thanks to its multimodal mechanism of action, Herantis’ HER-096 has the potential to stop the progression of Parkinson’s disease and significantly improve patients’ quality of life.

R&D Update Webinar Information:

Please join Herantis’ R&D update webinar on Thursday, January 19th, 2023 at 14:00– 15:00 EET via this link: [Click Here to Register](#)

After registering, you will receive a confirmation email containing information about joining the webinar. For more information and to access the live webcast, including audio, video and presentation slides, visit our web site at www.herantis.com.

The audience will have an opportunity to ask questions in a live Q&A session with speakers. Questions to event speakers may be asked beforehand by sending an e-mail to ir@herantis.com. During the

event, questions may be asked by using the chat function on the live webcast dashboard as well as by emailing ir@herantis.com. Interested parties unable to watch the live webcast will be able to view and listen to an archived copy of the webcast, which will be available on www.herantis.com/investors/ following the conclusion of the event.

About Herantis Pharma Plc

Herantis Pharma Plc is an innovative biotech company developing disease modifying therapies for Parkinson's disease. Herantis' lead product HER-096, is an advanced small synthetic chemical peptidomimetic molecule developed based on the active site of the parent CDFN protein. It combines the compelling mechanism of action of the CDFN protein with the convenience of subcutaneous administration.

The shares of Herantis are listed on the Nasdaq First North Growth Market Finland and Nasdaq First North Growth Market Sweden. As previously announced by Herantis, Nasdaq Stockholm AB has approved Herantis' application to delist the shares of Herantis from Nasdaq First North Growth Market Sweden, and the last day of trading in the shares of Herantis on Nasdaq First North Growth Market Sweden shall be January 31, 2023.
