About Herantis Pharma Plc

Herantis Pharma Plc is an innovative biotech company developing disease modifying therapies for Parkinson’s disease. Herantis lead product HER-096, is an advanced small and synthetic chemical peptidomimetic molecule developed based on the active site of the parent CDFN protein. It combines the compelling mechanism of action of the CDFN protein with the convenience of subcutaneous administration.

The shares of Herantis are listed on the Nasdaq First North Growth Market Finland and Nasdaq First North Growth Market Sweden.
